

PRODUCT DATA SHEET

BLUEFORCE COMMAND

Adaptive and dynamically composable Common Operating Picture for mobile and autonomous mission resources

BlueforceCOMMAND is our "Single Pane of Glass" common operating picture (COP) software application for Windows and/or HTML5 client computing platforms. The product enables the rapid formation of tactical teams and facilitates rich information sharing amongst team members using smartphones, tablets, and laptop computing devices. The product combines information from deployed personnel, autonomous agents and information services, and body-attached or unattended ground sensors to provide a broad spectrum of information for commanders and staff members and enables faster and superior synchronized planning and decision support.. All of this on a "single pane of glass" for lower cognitive lift.

Key features and benefits of BlueforceCOMMAND

- Real-time View: People, GIS, sensors, and AI services
- Shared map markup and points of interest (POI)
- Full chain of custody with historical XPRES callup
- Secure: FIPS 140-2 certified crypto providers
- Extensible and future-proof: Plugins with API and SDK
- Multimedia: Standards based video/audio players
- Sustainable: One code base backed by world-class support
- Accountability: PAR checks, roll call, and evac
- Interoperable and scalable: Built on internet standards
